SG1I	left the following message:	
	The request for the addition ofto OST's contract with SRI to study paranormal activities has been denied by Mr. Colby. No further action is to be pursued.	SG1B
	This message was relayed to us by who had received it from Dr. Steininger.	SG1I
	29 May 73	
	ADDENDA:	
SG1I	Spoke to of OST on this date. He had also just received the message	
	and had little to add other than that (DC/OST) had told him that Both	SG1I
	Colby & Shlesinger had decided that, because of the publicity SRI & Swann & Geller	
	had received, it would be too dangerous for the Agency to stay involved with them.	
	Allegedly, their decision was not made on substantive issues & there may be some	
	chance that research with and through other facilities might be favorably considered	l.
6G1I	is going to call SRI today to let them know & I offered to call as well if he	
	feels that it will be useful. There will be no continuation of their project, either	r;
	the irony is that by our kicking it over we invoked the higher authority review.	SG1B
SG1I	I suggested to that we draft a memo up thru channels asking for substantive	
	guidance in the whole area & he agreed to endorse it.
